Phoebe Lin

Product design lead for zero-to-one products · Human-AI interaction for learning, uncertainty, & trust

Mountain View, CA · phoebezlin.com · phoebe.lin93@gmail.com

Experience

Design Lead, Roblox — San Mateo, CA · Nov 2023 – Present

- Led design for the agentic transformation of Roblox's creator platform, defining reusable interaction patterns for how AI agents recommend and take action, adopted across desktop and mobile surfaces serving 3M+ creators.
- Took analytics from 0-to-1 to 90% weekly usage among top creators, then extended the platform into experimentation and observability.
- Built the data visualization design system used across 30+ products and 5+ teams, balancing specialized needs with reusable components.
- Prototyped with AI and shipped production code; managed and fostered the growth of 2 interns and 2 designers.

Senior Product Designer, Chan Zuckerberg Initiative — Redwood City, CA · Jun 2020 – Nov 2023

- Redesigned the core experience of Summit Learning Platform for students and teachers, used by 200k+ students across 400+ schools, including information architecture and onboarding.
- Led 0-to-1 explorations for self-directed learning and partnered with GripTape to scale their program; defined the design process that took new ideas from concept to market.
- Led co-design workshops with students, faculty, learning scientists, and institutional partners to foster an inclusive, high-trust environment.

Human-Computer Interaction Researcher, Harvard/MIT Media Lab — Cambridge, MA · Mar 2019 – Jun 2020

- Designed Zhorai, a conversational agent that teaches 3rd–5th graders machine learning concepts, and piloted it with ~20 students.
- Led research on human-AI interaction and explainable AI, showing that common evaluation methods can mislead whether users trust and understand AI systems.
- Co-designed an AI literacy curriculum with K-12 teachers, embedding AI concepts into ELA, science, and history classes.

Product Designer, SchoolCity (acquired by Illuminate Education) — Santa Clara, CA · Jul 2017 – Jun 2018

- Designed assessments and reporting for teachers and administrators, and a new student portal.

Education

Harvard University, Master in Design Studies (MDes), Technology — 2018 – 2020

Teaching Fellow for graduate-level design and learning science courses, supporting ~150 graduate students

UC Berkeley, BA, Computer Science and Cognitive Science — 2011 – 2015

Publications

Engaging Teachers to Co-design Integrated AI Curriculum for K-12 Classrooms. CHI 2021

Zhorai: Designing a Conversational Agent for Children to Explore Machine Learning Concepts. AAAI 2020

Proxy Tasks and Subjective Measures Can Be Misleading in Evaluating Explainable AI Systems. IUI 2020

Skills

Design: AI and agent interaction design, learning experience design, narrative and storytelling, trust and transparency patterns, product strategy, interaction and visual design, design systems, data visualization, high-fidelity prototyping

Research: workshop facilitation, interviews, surveys, usability and concept testing, mixed methods research

Tools: Figma, prototyping in code (HTML/CSS, JavaScript, Git), Cursor, Claude, Codex, Webflow
